SPEAKERS

Rhonda Mostyn, BSc, DC

Dr. Rhonda Mostyn, the Clinic Director at Theralase, leads ongoing clinical studies and research, coordinates educational seminars on cold laser therapy, and supports hundreds of practitioners treating patients with cold laser on a daily basis.

Dr. Mostyn is a graduate of CMCC and was Clinic Director for over 10 years at the St. Clair West Chiropractic and Wellness Clinic in Toronto.

Robert Weersink, BSc, PhD

Dr. Weersink works with the University Health Network in Toronto as Director of Operations for both the Guided Therapeutics Program and The Laboratory for Applied Biophotonics, Ontario Cancer Institute.

He is also a Senior Staff Scientist at the Biophotonics Facility of Photonics Research, Ontario Cancer Institute.

David Groves, BA

Mr. Groves has over 20 years experience working with healthcare systems and solutions. His expertise in emerging health care technologies includes years of experience working with therapeutic phototherapy lasers.

David Gabelhouse, DC

Dr. Gabelhouse has been working in private practice in Powell River, BC since graduating from CMCC in 1977. Over the past 3 years he has been using laser therapy extensively in practice. Outside of practice, Dr. Gabelhouse is involved as a community activist in the Powell River area.
